MINUTES OF THE CITY OF HOLLADAY
CITY COUNCIL MEETING

Thursday, August 7, 2025
6:00 p.m.
City Council Chambers
4580 South 2300 East
Holladay, Utah

Briefing Session – 5:30 pm

ATTENDANCE:

Mayor Rob Dahle
Paul Fotheringham
Emily Gray
Matt Durham
Drew Quinn
Ty Brewer

City Staff:
Gina Chamness, City Manager
Stephanie Carlson, City Recorder
Todd Godfrey, City Attorney
Holly Smith, Assistant City Manager
Jon Teerlink, Community Development Dir.

Mayor Rob called the Briefing Session to order. The Council reviewed the agenda. Council Member Brewer shared comments about sidewalks in the community as well as the Outdoor Lighting Standards language. Community and Economic Development Director, Jonathan Teerlink, explained that the lighting ordinance was based on a concern that was brought from the City Council to Staff.

Council Member Brewer asked why amendments to ordinances do not occur very often. He wondered if there might not be an awareness that issues can be brought to the attention of the City. Mr. Teerlink clarified that the process is communicated to residents. Mayor Dahle pointed out that during new builds and remodels, it would be possible to address lighting issues such as light trespass. Language from the Title 13.84 was read aloud.

Mayor Dahle noted that Granite School District voted on the lease agreement on Tuesday, so this is the last step.

Mayor Dahle discussed the MOU for Royal Holladay Hills. Essentially, the City is handling an obligation of the developer because increment is not flowing as quickly as they thought it would. The City did not feel it was possible to wait for the light, so it is being installed. The question was whether there should be an interest rate. Mayor Dahle does not believe the City should cover that cost, so it might make sense for the interest amount to be covered by the developer.

MINUTES OF THE CITY OF HOLLADAY
CITY COUNCIL MEETING

Thursday, August 7, 2025
6:00 p.m.
City Council Chambers
4580 South 2300 East
Holladay, Utah

Council Meeting – 6 pm

ATTENDANCE:

Mayor Rob Dahle
Paul Fotheringham
Emily Gray
Matt Durham
Drew Quinn
Ty Brewer

City Staff:
Gina Chamness, City Manager
Stephanie Carlson, City Recorder
Todd Godfrey, City Attorney
Holly Smith, Assistant City Manager

I. ***Welcome*** – Mayor Dahle.
Mayor Dahle called the City Council Meeting to order at approximately 6:00 p.m.

II. ***Pledge of Allegiance.***
Mayor Dahle led the Pledge of Allegiance.

III. ***Public Comments.***
Trudy Jorgensen-Price shared updates about the Library. She reported that the NASA-gifted "moon tree" is still doing well. She thanked everyone who participated in the Summer Reading program and noted that the fine waiver will work through the end of the month. She also thanked everyone who came in the previous day and donated blood. On Saturday, there will be a celebration for National Book Lovers Day where participants can decorate a mini composition book from 10:00 a.m. to 2:00 p.m. On Tuesday, there will be a vote for the primary election. On August 29, 2025, there will be an After Hours Star Party at dusk. The event will be done with the Salt Lake Astronomical Society.

Rustin Nance - 5220 Holladay Blvd. He was present to request Council Member assistance, as he has already spoken to City Planning and the Mayor. It was reported that the work done on a neighboring home was not done to Code. When he spoke to the City Planner, it seemed like this issue would be taken care of, but that has not happened. It will be expensive for Mr. Nance to protect himself from what is happening on the neighboring side. He asked the Council to look into this issue because he should not have to take on this financial burden, as he is an innocent party.

IV. ***Consideration of Ordinance 2025-13 – Amending Title 13.84 of the City Code Relating to Outdoor Lighting Standards.***
Council Member Fotheringham moved to ADOPT Ordinance 2025-13 – Amending Title 13.84 of the City Code Relating to Outdoor Lighting Standards. Council Member Gray seconded the motion. Vote on Motion: Council Member Gray-Yes; Council Member Quinn-Yes; Council Member

Fotheringham-Yes; Council Member Durham-Yes; Council Member Brewer-Yes; Mayor Dahle-Yes. The motion passed with the unanimous consent of the Council.

V. *Consideration of Resolution 2025-16 – Approving an Interlocal Agreement with Salt Lake County for Construction and Maintenance of Historical Markers.*

Council Member Gray moved to APPROVE Resolution 2025-16 – Approving an Interlocal Agreement with Salt Lake County for Construction and Maintenance of Historical Markers. Council Member Quinn seconded the motion. Vote on Motion: Council Member Gray-Yes; Council Member Quinn-Yes; Council Member Fotheringham-Yes; Council Member Durham-Yes; Council Member Brewer-Yes; Mayor Dahle-Yes. The motion passed with the unanimous consent of the Council.

VI. *Consideration of Resolution 2025-17 – Approving a Lease Agreement with Granite School District for Spring Lane Elementary.*

Ms. Chamness explained that negotiations with Granite School District began in September of last year. The results of the negotiation process are shown in the Lease Agreement. It is a 30-year land lease, with the school district assuming responsibility for the demolition of Spring Lane Elementary. The lease includes a 2% escalator over the 30-year term, beginning with a first-year payment of approximately $37,000 annualized. This fiscal year that will include a payment of just over $18,000. Over the term of the lease, the total amount is approximately $1.5 million.

This is a fairly straightforward lease without a lot of restrictions on the City in terms of the use. Ms. Chamness reported that the City will assume responsibility for maintenance of the school grounds and begin payment in January 2026. In the lease, there is a first right to purchase for the tenant. Mr. Godfrey explained that the lease requires the City to design the use of the park property in a way that leaves approximately five acres open in case there is some sort of emergency situation. After 20 years, the district could take the property back if there was a force majeure event that required them to do so. However, he explained that they would only be able to do that if there was an event within three miles of the park site and it was a reasonable location to relocate a school facility. At that point, they would be obligated to reimburse the City for the depreciating capitalized cost that was put into the park property. He believes the agreement is fair and noted that there will be a benefit to the public.

Ms. Chamness reported that the Granite School District Board approved the lease on Tuesday. Council Member Brewer asked for additional information about the first right of refusal. Mr. Godfrey reported that under State Law, there is a first right of refusal for the City on any piece of property that a district decides to surplus. The first right is based on that statutory first right. There is a valuation process in State Law. The contractual first right piggybacks on that and provides that if the Legislature, for any reason, eliminates that statute and does not prohibit a first right, the contractual first right would follow that same statutory process. This would involve the same valuation process.

Mayor Dahle acknowledged that it was a sad day when Spring Lane Elementary closed, but he commends the Council for having a long-term vision. The opportunity to preserve approximately 12 acres of open space inside the City is unique. Residents will benefit tremendously from the preservation of this space. It is a positive use of taxpayer dollars, as it doubles the amount of public space available. Mayor Dahle thanked Ms. Chamness and Staff for their efforts during this process.

Council Member Fotheringham noted that some taxpayers are not generally supportive of change, but this is an example where change happened and the City had to adapt to that change. He believes this is a positive outcome because it will add more green space to the community.

Council Member Fotheringham moved to APPROVE Resolution 2025-17 – Approving a Lease Agreement with Granite School District for Spring Lane Elementary. Council Member Brewer seconded the motion. Vote on Motion: Council Member Gray-Yes; Council Member Quinn-Yes; Council Member Fotheringham-Yes; Council Member Durham-Yes; Council Member Brewer-Yes; Mayor Dahle-Yes. The motion passed with the unanimous consent of the Council.

VII. ***Consideration of Resolution 2025-18 – Approving a Criminal Legal Services Agreement with Hansen Law for Prosecution Services.***

Ms. Chamness explained that the contract change reflects the addition of language that allows for a 3% escalator in the overall cost of the fixed contract with the prosecution. This year, that will be approximately $10,000. Like all Justice Court expenses, that amount is shared between the City of Holladay, Millcreek, and Cottonwood Heights on a proportional basis.

Council Member Gray moved to APPROVE Resolution 2025-18 – Approving a Criminal Legal Services Agreement with Hansen Law for Prosecution Services. Council Member Brewer seconded the motion. Vote on Motion: Council Member Gray-Yes; Council Member Quinn-Yes; Council Member Fotheringham-Yes; Council Member Durham-Yes; Council Member Brewer-Yes; Mayor Dahle-Yes. The motion passed with the unanimous consent of the Council.

VIII. ***Consideration of Resolution 2025-19 – Approving an Agreement with Stowell Crayk, PLLC, for Indigent Defense Services.***

Ms. Chamness explained that this contract was originally executed in 2010, and rates have been stagnant for the 15 years. This contract will adjust the primary rate from $150 to $200. That increase was reflected in the budget that the City Council passed in June. There were no questions about either of the contracts.

Council Member Quinn moved to APPROVE Resolution 2025-19 – Approving an Agreement with Stowell Crayk, PLCC, for Indigent Defense Services. Council Member Durham seconded the motion. Vote on Motion: Council Member Gray-Yes; Council Member Quinn-Yes; Council Member Fotheringham-Yes; Council Member Durham-Yes; Council Member Brewer-Yes; Mayor Dahle-Yes. The motion passed with the unanimous consent of the Council.

IX. ***Consideration of Resolution 2025-20 – Approving a Memorandum of Understanding for the Royal Holladay Hills Project Relating to Tax Increment Financing.***

Mayor Dahle reported that this has to do with the light installation. Mr. Godfrey recommended that the address listed be changed to the intersection of Murray Holladay Road and Channin Street. At the end of paragraph two, it is proposed that language be added to state, "In addition, the City shall also be entitled to interest on any amounts remaining due at an interest rate equivalent to the amount received by the City on funds deposited in the Public Treasurer's Investment Fund."

Council Member Fotheringham clarified that the City has agreed to pre-fund some infrastructure, specifically the traffic light on Murray Holladay Road and Channin Street. That traffic light was an obligation of the Royal Holladay Hills project, but was going to be funded with tax increment. Tax

increment is not adequately flowing, but the City wanted to see this traffic light completed. As a result, the City is funding it with the intention of being reimbursed with tax increment financing.

Council Member Fotheringham moved to APPROVE Resolution 2025-20 – Approving a Memorandum of Understanding for the Royal Holladay Hills Project Relating to Tax Increment Financing, with the following changes: correcting the address referenced so it reads Murray Holladay Road and Channin Street, and adding the following language - In addition, the City shall also be entitled to interest on any amounts remaining due at an interest rate equivalent to the amount received by the City on funds deposited in the Public Treasurer's Investment Fund." Council Member Brewer seconded the motion. Vote on Motion: Council Member Gray-Yes; Council Member Quinn-Yes; Council Member Fotheringham-Yes; Council Member Durham-Yes; Council Member Brewer-Yes; Mayor Dahle-Yes. The motion passed with the unanimous consent of the Council.

X. *Consent Agenda:*

a. Approval of Minutes – April 3, June 5, June 12, and July 17.

Council Member Brewer moved to APPROVE the Consent Agenda. Council Member Durham seconded the motion. The motion passed with the unanimous consent of the Council.

XI. *City Manager Report –* *Gina Chamness.*

Ms. Chamness shared updates with the City Council. The City received notice earlier in the day from the Utah Department of Transportation ("UDOT") that a Safe Sidewalks Grant will be received for $200,000. This is for Phase II of the 4500 South sidewalk project and will require at least a 25% match from the City. That will come forward in a future budget amendment. There is excitement to see Phase II move ahead. If there is support from the City Council, there is a desire to apply for another Creative Aging Grant. That is a grant that has been received over the last two years and has been administered by the Arts Council. Council Member Fotheringham expressed support for applying for the Creative Aging Grant.

XII. *Council Reports and District Issues*

Council Member Gray reported that Cottonwood High School has a new Principal starting this year called Dr. Justin Pitcher. She believes he will be a fantastic Principal, as he was Vice-Principal at Brighton High School previously. His PhD thesis was about helping to create an environment that includes refugees. Council Member Gray also reported that Evan Tyrrell will replace Pam Roberts at Wasatch Front Waste and Recycling who is retiring.

Council Member Quinn reported that she attended a meeting related to the Boundary Study. It was interesting and a lot of different ideas were shared to attract more students into the Granite School District. The committee conducting the Boundary Study will present its preliminary recommendations on September 2, 2025. Council Member Quinn went to the family event at Holladay Lions Recreation Center, which was a fun experience. She expressed appreciation to Happy Healthy Holladay. Council Member Quinn also reported that she received several complaints about fireworks in her district.

Council Member Fotheringham reported that the summer concerts have been taking place. The last few concerts have seen over 1,000 attendees. There will be the inaugural performance of *Newsies* from the Holladay Theater Company. Council Member Fotheringham spoke to a constituent who

was the recipient of one of the trees from the Tree Giveaway that happened 10 years back. The tree is beautiful and he thought it would make sense to bring someone from the Tree Committee to that home to see what it looks like 10 years after the tree was planted. It is wonderful to see the outcomes of the Tree Giveaway program.

Council Member Durham reported that the Tree Committee has some events coming up, including a Tree Talk event in September at the Library. In addition, there is an event being planned in connection with the 25th anniversary of the City. In October, there will be a tree planted in honor of Travis Jones, who was the longtime Chair of the Tree Committee. Council Member Durham expressed appreciation to Mr. Teerlink for working with the Tree Committee on timing and locations.

Council Member Brewer commented that the Summer Concert Series has been a great success. This is something that contributes to the culture of the community. The former Subway that is on Highland Drive has become dilapidated, and he has had several constituents reach out to him about that and the Code Enforcement Officer has been looking into the issue. The hope is that the owner of that property will respond soon. Council Member Brewer acknowledged the issue of young people using electric vehicles. This is something the Council has discussed in the past and he hopes that something meaningful can be done.

Mayor Dahle reported that the Interfaith Council has organized a collection of items for the Cottonwood High School Food Pantry. There was a request for school supplies, so items will be collected in front of City Hall from 9:00 a.m. to 12:00 p.m. on Saturday. The collected items will then be taken to Cottonwood High School so they can be added to the pantry ahead of the school year. Mayor Dahle explained that an Interfaith Round Table takes place once a month. The next one will be held on Monday at 7:00 p.m. On November 16, 2025, the Interfaith Service is scheduled to take place. It will be held at Olympus Junior High School.

XIII. *Recess City Council Meeting to RDA Meeting*

Council Member Fotheringham moved to RECESS the City Council Meeting and RECONVENE in an RDA Meeting. Council Member Brewer seconded the motion. The motion passed with the unanimous consent of the Council and the City Council meeting was recessed at 6:42 pm.

XIV. *Reconvene City Council Meeting in a Work Meeting:*

Mayor Dahle reconvend the City Council in a work meeting at 6:55 pm

a. Financial Model Update – *Fred Philpot*

Ms. Chamness reminded those present that the City Council has discussed how to finance some large projects in the City, including the City Hall Building and the Spring Lane Park. The last time there was an in-depth conversation about this was in February 2025 and the City Council asked that the funding be looked at holistically. In preparation for a more in-depth conversation about the size of the bond, which will take place on August 28, 2025, the City has asked Mr. Philpot to update the Financial Sustainability Plan and look at what is expected in terms of revenue and expense growth over the next five years, both in the General Fund and the Capital Projects Fund.

Mr. Philpot stated the models make it possible to better understand the various possibilities. Based on Council Member feedback received, scenarios can be modified as needed. He pointed out that the

model is based on budget numbers. The actuals from previous years were looked at, but the forecasts were not based on those. He pointed out that what is budgeted and what actually happens can be different. The hope was that the numbers would be close, however, sometimes there is a surplus when there is more revenue than anticipated. It is also possible for the reverse to happen. He reiterated that the model is based on the budget numbers.

The Revenue and Expenditure Growth table was shared. Mr. Philpot referenced the property tax revenues, sales tax revenues, and revenue line items that fluctuate from year to year. General Sales and Use Tax is shown at 2.5%. Historically, it has been higher than that, with 6% to 8% growth in sales tax revenues. It is important to consider what happens if that slows down and there is not robust growth. The General Expenditure Average Annual Growth Rate is shown at 3%. In prior years, inflation was much more pronounced, and there was a lot of construction cost inflation versus now, where it has tapered off somewhat. Public Works and Public Safety have a higher percentage of growth shown, with 4.5% for Public Works and 7% for Public Safety.

Ms. Chamness discussed sales tax. She explained that there will be some additional brick and motor associated with the Holladay Hills site. 75% will be shared with the developers through the end of the project in 2038. There was discussion about the base amount and what would be shared.

In the model, there is approximately $80,000 in property tax revenue, but there is no increase or decrease shown. Mr. Philpot further reviewed the Revenue and Expenditure Growth table and shared the Model Assumptions graph. The black line is the General Operations and Maintenance Expenditures and the blue line is the General Fund Revenues. As inflation continues to hit the General Fund, those two lines could cross, where expenses continue to grow at a higher rate. Council Member Fotheringham pointed out that property taxes do not naturally increase as a result of housing inflation. Mr. Philpot explained that this is a scenario tool, so it is possible to consider what the comfort level is relative to reliance on sales tax. What has been shared provides clarification about the model.

Council Member Fotheringham mentioned the CIP Fund Balance at $17.6 million. He asked if that is completely unrestricted or if that funding is intended to be used elsewhere. Mayor Dahle mentioned the RDA and asked if the $17.6 million would turn to $21 million if it went from restricted to unrestricted. Mr. Philpot provided clarification about the assumptions the model uses. He further discussed the performance targets. The Funding Needs information was reviewed next, which includes the City Hall Seismic Retrofit and Renovation and the Spring Lane Park project. The combined cost is an estimated $19.9 million. Alternative funding sources include Community Project Fund, Granite School District contribution, Unrestricted Fund Balance from prior cost offsets, and other grants. The Scenario Analysis was presented to the City Council with two bonding options:

- Option A:
    - Bond: $6.6 million in 2026.
    - Goal: Use up Fund Balance to reduce bonding amount.
- Option B:
    - Bond: $10.1 million in 2026.
    - Goal: Preservation of Fund Balance.

The bonding assumptions involve a 20-year term, 4% interest rate, and 2% COI. Ms. Chamness reported that there will be a more in-depth conversation about the different options at the August 28,

2025, City Council Meeting. Mr. Philpot explained that the scenarios make it possible to better understand the tradeoffs associated with each option.

Mayor Dahle asked if the 20-year term is a standard term. Mr. Philpot reported that it is possible to have a shorter term than that, but 20-year terms are fairly common. Mayor Dahle pointed out that these will be 25-year assets, so it might make sense to consider a 25-year term instead. He asked if there is a downside to the slightly longer term. Ms. Chamness noted that this can be discussed at the next meeting but there was an assumption made in the construction of the lease that there would be a 20-year term. There was additional discussion about the tradeoffs and the term length. Mr. Philpot further reviewed Options A and B. The Baseline Scenarios were discussed. Mr. Philpot shared the following information with the Council:

- Option A Baseline Scenario:
  - Bond Proceeds of $6.6 million.
  - No Action (property tax increase, General Fund transfers out).
- Option B Baseline Scenario:
  - Bond Proceeds of $10.1 million.
  - No Action (property tax increase, General Fund transfers out).

The Scenario Analysis includes a graph to illustrate the Option A Baseline Scenario, including Unrestricted General Fund Balance and the CIP Fund Balance. Mr. Philpot explained that the Option A Baseline Scenario graph starts off with the net positive but it does decline because the revenues are not growing as fast as the expenses. In addition, there is the added debt service payment. There is new debt on top of the existing debt and that erodes the net revenues. The CIP Fund Balance graph shows the reliance on the Fund Balance. Mr. Philpot reviewed the Option B Baseline Scenario graph and noted that the Unrestricted General Fund Balance and CIP Fund Balance scenarios are shown. There is a similar issue with the Option B Baseline Scenario, but the General Fund is in a worse position, because it is covering more debt service since $10.1 million has been issued instead of $6.6 million. However, this also impacts the CIP Fund Balance numbers that are shown.

Ms. Chamness reported that during the August 28, 2025, City Council Meeting discussion, it will be possible to look at baseline information as well as the project costs in each of the scenarios. It is also possible to look at the impact of changing the sales tax number. For instance, it could shift from 2.5% to 6%, so there could be more clarity about how that would impact the different options. The Public Safety increases could also be looked at further, including what would happen if those were higher than the listed 7%. The Council discussed Public Safety increases that have taken place in recent years.

One of the main benefits of the model scenarios is that it becomes possible to understand the different impacts. Most entities will let their property tax remain as-is, which is fine if the sales tax revenue continues to come in high, but sometimes that is not the case. Mr. Philpot reported that one of his clients has gone through this process several times, so a taxation policy tied to inflation was adopted.

Mayor Dahle asked if the City Council needs to decide whether to bond for $6.6 million or $10.1 million. Ms. Chamness confirmed this. Mayor Dahle stated that the Council can continue to discuss the bond amount. He was not sure why the Council would choose Option A as opposed to Option B.

There are other projects on the horizon that need to be taken into account. He thought it made sense to focus on the bond amount during the August 28, 2025, meeting discussion.

Additional considerations were shared. Mr. Philpot pointed out that there are upcoming projects on the horizon, such as the Highland Drive reconstruction and the Public Works facility. Drawing down the Fund Balance now could create some challenges in the future with respect to those kinds of projects.

Mayor Dahle asked how comfortable the Council was with the revenue and expense models. It seemed that the revenue model reflects the worst-case scenario. He wanted there to be something in place that is realistic. Mr. Philpot clarified that it is not the worst-case scenario that has been presented, but it is conservative. It is possible to see more sales tax included than what has been projected. Ms. Chamness reported that the sales tax amount has been significant for the last several years, but looking forward, there is some uncertainty. As a result, it was determined that the assumptions would be conservative. 2.5% for sales tax growth would have seemed aggressive to her at one point, but in the last six years, there have been significant increases. The Council further discussed sales tax numbers.

Council Member Brewer thought it would be interesting to look at the sales tax numbers before 2019. Ms. Chamness reported that the last time this was done in 2020, the Public Safety line item was 6%. There have been greater increases seen than what was anticipated at that time. Mayor Dahle explained that there is another issue facing the Unified Police Department ("UPD") this year, because Salt Lake City increased its rates again, which drives up the market conditions. Ms. Chamness shared comments about the next steps and the meeting discussion that will take place in August.

Mayor Dahle mentioned the $19.9 million amount. He reported that the City will apply for Tourism, Recreation, Culture, and Convention ("TRCC") funding, but it is not possible to include that. Ms. Chamness asked Mr. Philpot to share information about the debt structure. Mr. Philpot explained that the debt structure could influence the solutions. He pointed out that it is possible to structure the debt so it is backloaded and shared some example scenarios with the Council. There are creative options available based on what the City Council would like to pursue. Council Member Brewer thought it might be meaningful to see scenarios specific to each of the projects. Ms. Chamness believed the estimated amount is $10 million for the City Hall Project and $7 million for the Spring Lane Project.

b. Grant Update – *Holly Smith*

Assistant City Manager, Holly Smith, shared grant information with the City Council. The following question was posed to the Council, "Why do we apply for grants?" She explained that the grants that are accessed are largely funded by tax dollars and other contributions paid for by residents. By securing and reinvesting these funds into the City of Holladay, it is possible to uphold the commitment made to be responsible stewards of public resources.

Ms. Smith explained that the City does not simply apply for grants but considers whether the deadlines can be met and if there are enough Staff resources to carry out the project. She shared information about the process of identifying priority projects. When there is a potential grant application to submit, the City Manager comes to the City Council and seeks approval to apply. Ms. Smith reported that there has been a total of $52.2 million of total funding secured, an 80% success rate, and a 10%

average local match share. The success rate in the City of Holladay is high because the City is extremely thoughtful about every grant application submitted.

Some of the recently completed projects were highlighted. Ms. Smith discussed the Wasatch Boulevard Bike Lane Project. The grant was for $600,000, which was also the total cost. Another project was the Phase I 2700 East Sidewalk Fill-In, with a grant amount of $300,000 and a total cost of $500,000. There was also the Phase I 4500 South Sidewalk Fill-In project, with a grant amount of $100,000 and a total cost of $133,000. Ms. Smith reported that there are 24 active, funded projects, which are related to capital improvements, facility enhancements, planning and studies, and program development. 93% of the project costs were covered by the grant amounts that were awarded.

Ms. Smith shared some of the upcoming capital projects, including Phase II of the 2700 East Sidewalk Fill-In. Two grants are being used to complete that work. The City Hall Energy Project is also upcoming as is the Signal Optimization project. Ms. Smith shared information about the Highland Drive Reconstruction Project and the Highland Drive Bridge Project. There is $3.6 million for the design and right-of-way acquisition associated with the Highland Drive Reconstruction project as well as an additional $1.23 million. That project work will continue to move forward. As for the Highland Drive Bridge Project, the grant amount is $7.1 million.

There are other projects currently underway as well. Ms. Smith reported that Mr. Teerlink is leading the General Plan Update process and there is grant funding associated with that process. In addition, there is the Rooted Together Project and the addition of outdoor cameras at the skate park. There is also program support, which includes funding related to public health, arts, and housing. As an example of the public health support, she explained that there was some funding received through Salt Lake County, which was related to the opioid settlement.

Mayor Dahle expressed appreciation for the work that has been done to obtain the various grants. The City has worked hard to find monies outside of the traditional revenue sources and the grants have benefited the community. He thanked Staff for their efforts related to grants and funding.

c. Calendar:

- ***Council Meetings –*** *August 28, September 11 and 18, October 2 (tentative), 9, and 23, November 6 and 20, December 4 and 11.*
- ***Board of Canvassers Meeting –*** *August 26.*
- ***ULCT Conference –*** *October 1 and 2.*

Mayor Dahle reviewed the meeting dates. On September 11, 2025, Council Member Gray will Chair the meeting, as Mayor Dahle will be absent. It was noted that October 2, 2025, is listed as a tentative meeting. The Utah League of Cities and Towns ("ULCT") Conference is scheduled to take place on October 1 and 2, 2025. City Recorder, Stephanie Carlson, asked Council Members interested in attending to let her know so she can complete the needed registrations. Council Members Quinn and Brewer expressed interest in attending the ULCT Conference.

XV. ***Closed Session for the Purpose(s) Described in U.C.A. 52-4-204 and 205 (if needed).***
There was no Closed Session.

XVI. ***Adjourn***

Council Member Fotheringham moved to ADJOURN. Council Member Durham seconded the motion. The motion passed with the unanimous consent of the Council.

The City Council Meeting adjourned at approximately 8:18 p.m.

I hereby certify that the foregoing represents a true, accurate, and complete record of the Holladay City Council and RDA Meeting held on Thursday, August 7, 2025.

_____ _____

Stephanie N. Carlson, MMC
Holladay City Recorder

Robert Dahle, Mayor

Minutes approved: **November 6, 2025**
